

## Isaac Harvey

Isaac Harvey was born with a disability called limb pelvic hypoplasia and scoliosis - this means he has no arms and short legs.

Isaac uses a wheelchair to get around independently in his day to day life.

Isaac likes to be creative and do things that encourage other people to also be creative.

He went to a mainstream school where he was supported by learning assistants and learnt how to edit videos.

Isaac has:

- made videos for YouTube

- made videos for people who have paid for them

- led Wheels and Wheelchairs - this is a group where people on roller skates push people in wheelchairs.
