

Niall El-Assaad

Niall set up [fuelService](#). This is an app for disabled drivers to find and ask petrol stations if they can help when they arrive.

[fuelService](#) is used by about a third of petrol stations in the UK.

Niall works to help find a cure for **paralysis** from injuries to your spine.

Paralysis is when you are unable to move your body.

Niall set up [SCitrials.org](https://www.scitrials.org). This is a website that helps you find out about trials and new treatments.
