Disability Power 100

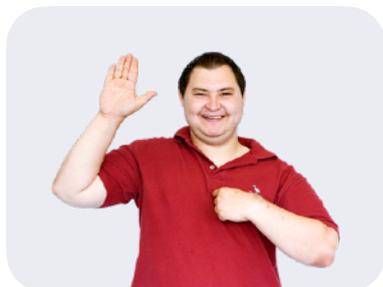

Chris  
Fry

Over last 10 years Chris has fought for the rights of disabled people by taking disability rights cases to court.

Disability rights cases are situations where a disabled person's rights have been ignored.

**Rights** are things that every person should have by law. Like the right to be safe, the right to education, the right to be respected.

Chris' work asks non-disabled people to think about accessibility and including disabled people.

Chris is also working to encourage more people to get involved with disability rights work.
