Disability Power 100

# Dr Halima Begum

Dr Halima is **Chief Executive** of the Runnymede Trust, which works to make things fairer for people of different backgrounds.

A **Chief Executive** is the person in charge of the staff and the work they do at an organisation.

Halima is disabled and was born in Bangladesh, but she grew up in London.

She has had leadership roles in Government departments, where she helps disabled people living in other countries.

Recently Halima and her team won a court case, meaning the Government can no longer ignore disabled people when hiring new managers.
